Frank Maddock High School finds itself in an exciting position of re-visioning and re-branding as a new administrator team is currently leading the dedicated and experienced FMHS team. Over the last two years, COVID-19 has impacted the momentum for our school and community. Students and staff are experiencing a new learning dynamic based on the experiences that we have overcome during the pandemic. As our school adjusts to the new culture that we have post-pandemic, we have much to do to see how our students and staff are doing, and what direction we go next. We are still in a place where we continue to move forward in processes to expand and grow in learning and visioning happening as part of the re-branding, implementation of the WRSD PLE and development of new instructional leadership processes within the school.

This education plan and assurance model report is a living document, and we will continue to update, monitor, and complete various strategies and goals as they happen. We invite you to continue to visit this document to see the great work that is happening at FMHS throughout the year.

2022-2023 Inquiry Question, Strategies and Measures

Our goal is to provide a safe environment for students to confidently engage in their own journey of personal growth, empowering them for a successful future beyond high school. This inquiry question is directly aligned with the [WRSD Powerful Learning Environment](#) (PLE) Framework. The evidence that has driven our emphasis on this inquiry question has come from data in our accountability pillar; conversations with staff, students, and parents; and data collected throughout the year from classroom learning, professional learning conversations, FMHS professional learning communities, and more.

Our **inquiry question** is:

HOW DOES THE FMHS TEAM SUPPORT STUDENTS ON THEIR PERSONAL PATH OF
SELF-DISCOVERY IN PREPARATION FOR THEIR SUCCESSFUL FUTURE BEYOND HIGH SCHOOL?

At FMHS, we have determined two key areas to emphasize in order to ensure that the FMHS team is supporting students on their personal path of self-discovery in preparation for their successful future beyond high school:

1. Enhancing the Sense of Belonging for Everyone at FMHS
2. Ensuring High Levels of Learning for All Students

It must be prefaced that much of the work that we hoped to achieve during the 2021-2022 year did not occur. With the significant impacts of COVID-19 on attendance for students and staff, on mental wellness, and teaching and learning, the vision of the education plan did not come to fruition. The world of education did change last year, and much of our efforts last year focussed on stabilizing students, learning and supporting our staff within the new learning environment. Many projects were begun, but not completed. The 2022-2023 year will be based on a continued effort for the completion of the projects that are in progress.

General Comments about Academic Achievement Data

FMHS has just completed a successful building year. Revisioning and rebranding processes were driven by work that the whole school team is doing. We have been using a variety of data, including that which is included in the below detailed overview of our annual educational results report (AERR) to drive the areas where the work needs to be completed. In general, the data in our AERR indicates that FMHS's emphasis on enhancing the sense of belonging for all staff, students and parents and ensuring high levels of learning for all students are two variable and pertinent areas for growth for our school.

2020-2021 Results Report

- ❖ For a **detailed overview** of results regarding specific questions from the AERR, Provincial Achievement Test Data, and Diploma Examination Data [please view this google slide document](#).
- ❖ **Safe and Caring Schools Data:** data demonstrates that parents and students would like to see FMHS become a more welcoming place; 43% of parents and 65% of students state that FMHS is a welcoming place to be. The implementation of our school surveys will assist in gathering additional data so that we can address the specific needs of our school.
- ❖ **School Quality Data:** only 57.5% of parents and students state that students find school work interesting. This is an area where FMHS needs to address; how can we ensure that school work at FMHS is engaging? The implementation of our school surveys will assist in gathering additional data so that we can address the specific needs of our school.
- ❖ **Student Support Data:** parents have identified that access to programs and school support is difficult. Step one for FMHS is determining which programs are available and step two is ensuring that both students and parents are aware of what is available and how to access programs. We recognize that FMHS needs to improve the dissemination of information about our available supports and services for students and families.
- ❖ **Citizenship Data:** 54% of students have identified that students do not respect each other; this an area that we need to investigate further and build strategies to improve upon. 14% of parents and 44% of students have identified that students are encouraged to be involved in community volunteerism; this is an area where we need to better advertise what students are doing in our school community, as well as finding better and new ways to ensure that students are effectively engaged in our community.

- ❖ **School Improvement Data:** There were so few parents that answered the school improvement questions that we did not receive any data on these questions. 44% of teachers agree that FMHS has improved in the last three years. There is work to do be done!
- ❖ **Provincial Achievement Data:** No Provincial Achievement Test Results for 2020-2021.
- ❖ **Diploma Achievement Data:** No Diploma Examination Results for 2020-2021.

Stakeholder Involvement

- The FMHS School Council has not met since April 2022, as such, this education plan will be provided and discussed in September 2022.
- Students and Staff will provide very specific data for this assurance model throughout the school year as part of the strategies and indicators for success.
- The FMHS School Council will be additionally involved in the implementation and review of this document, goals and strategies throughout the 2022-2023 school year.
